Hello...

You are starting AMGEVITA®, this medicine is used in children to treat a type of arthritis (sore joints) also skin, eye and tummy problems.

How is it given?

Your medicine is given as an injection by a nurse, doctor or a parent/carer that has been trained to give you the injection.

How often do I need to do this?

(Filled in by doctor or nurse)

How will I feel after my injection?

Your medication may make you feel poorly, although this doesn't happen to everybody who takes it. You need to tell your parent/carer how you feel so they can look after you and they can talk to your nurse or doctor if they need some advice.

How have I got this illness?

Some children get poorly with this type of illness. You haven't done anything bad or wrong.

Can I still do all of the things I enjoy?

Your doctor may need to try different medicines to make you feel better. As soon as you start to feel better, you can hopefully go back to the things you enjoy.

 What would I like to do when I start getting better?

Information for parents, reporting of side effects

If you get side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at <https://yellowcard.mhra.gov.uk/> or search for MHRA Yellow Card app in the Google Play or Apple store. By reporting side effects you can help provide more information on the safety of this medicine. Side effects should also be reported to Amgen Ltd on +44 (0) 1223 436441
